

LIDCO
Specialist Medical Equipment
Annual report and accounts
Print

Armstrong was briefed to produce Lidco's annual report to both fulfil statutory requirements and inform shareholders of the company's performance over the past 12 months. Working within the set brand guidelines Armstrong presented three options

for the report cover and review section of the report, for Lidco to choose their preferred option. Working closely with the Financial Director to set deadlines for typesetting and account sign off, the final documents were dispatched on-time and looking good!
